Insightify Weekly Report - Week 13

Week: May 27 - May 31, 2024

Author: Priya Mehta (Product Manager)

Highlights

Implemented zero-result fallback recommendations.

Positive feedback on new onboarding flow and tooltip hints.

Reduced average latency by 15% for Android users.

Key Metrics

Support tickets: 142 total ((down) from 164)

NPS: 8.0 ((up) from 7.1)

SmartSearch usage up by 22% week-over-week.

Top Issues

Voice search fails on some accents (esp. Indian English).

Search input not saving on form reload (Safari only).

Zero-results UI state still lacks guidance.

Next Steps

Push accessibility-focused design updates to QA.

Finalize SmartSearch keyboard shortcut updates.

Launch experiment on context-aware autocomplete.
